

COVID-19

At Eden Park your health is our number one priority. We have introduced health and sanitisation processes to ensure you feel safe. Extra cleaning regimes have been implemented which includes increased cleaning of surfaces used frequently.

ALERT LEVEL 1

Contact tracing

We should all continue to keep track of where we've been to assist with rapid contact tracing. This can be done by scanning the QR codes at the stadium.

Feeling sick?

If you feel unwell, please DO NOT enter the stadium. By taking care of yourself you are also keeping others safe.

Hand washing

Wash and sanitise your hands regularly for at least 20 seconds.

Coughing and sneezing

Cough or sneeze into your elbow or cover your mouth and nose with tissues. Dispose of these in the bin and use hand sanitiser or wash your hands.

Personal Protective Equipment (PPE)

Feel free to wear your own mask and/or gloves. Don't be alarmed if you see staff wearing PPE. It is not a mandatory requirement but is often preferred.

Finally, be kind!

Please remember to be kind to staff and patrons visiting Eden Park.
